

# **RE-OPEN LAKE CHABOT ROAD NOW!**

Tell the San Leandro City Council to Re-open Lake Chabot Road.

**Sign the Petition at [openlakechabotroad.com](http://openlakechabotroad.com)  
and Come to a Public Meeting**

**Monday, September 9<sup>th</sup> @ 7pm**  
San Leandro City Hall  
835 E.14<sup>th</sup> St., City Council Chambers

**Ask the City to:**

- **Re-open Lake Chabot Road now to alternating one-way traffic.**
- **Re-open the Road to reduce the increased traffic causing major hazards and damage to our neighborhood streets.**
- **Re-open the Road to provide quicker evacuation options in the event of a wildfire or other emergency as required by new state laws AB 747 and SB99.**
- **Apply for the numerous available Federal & State Grants to fix Infrastructure and Wildfire evacuation routes (which is Lake Chabot Road).**

We have waited long enough. Lake Chabot Road has been closed since the Atmospheric Storm on Jan. 1, 2023. It is an important County road and a critical evacuation route for the 900 Bay-O-Vista homes – more than 3500 residents - in an emergency. Wildfire risk has increased significantly in recent years and our neighborhood is now designated as a high, very high severity risk of wildfire by Cal Fire. Alternating one-way traffic routes are standard practice in cities, counties and Caltrans all over the Bay Area and California when roads are damaged. Open Lake Chabot Road and get the outside traffic out of Bay-O-Vista. Our neighborhood needs this option!
